ALASKA LOGISTICS, LLC

Vehicle & Automobile Loading Specification:

Unless otherwise specified, personally owned vehicles may have personal effects or other property shipped with them under the following specific conditions.

- E. Vehicles may not be loaded with other items of personal or commercial property that would cause them to exceed the gross vehicle weight rating (GVWR) as specified by the manufacturer or that would make them unsafe or unsuitable for operation on public roadways. Vehicles will be inspected to verify the GVWR and weighed to determine the total gross vehicle weight before Carrier's acceptance.
- F. If the vehicle exceeds the GVWR, owners may opt to remove cargo from the vehicle to lower its weight or transfer excess cargo weight to pallets. Cargo transferred from the vehicle to pallets will be billed as LCL cargo at the appropriate cargo rates listed in this tariff. Vehicle owners who are not present at the time of delivery may designate their delivery agent to make this choice. If no Owners or Agent is present at the time the vehicle is weighed, then the Carrier will remove items indiscriminately to achieve the most suitable weight and will ship the removed items as LCL cargo.
- G. No personal property will be accepted if loaded in the front seat, on the floor of the rear seat directly behind the driver's seat or anywhere within the passenger spaces to a height that interferes with the operator's 360 degree visibility through the passenger seat or rear compartment windows. No items may be loaded or secured to luggage racks except for car-top carriers that are specifically designed to be securely attached to such racks and closed to be impervious to weather conditions at normal highway speeds.
- H. Pickup truck beds may have personal property loaded in the truck bed, but not loaded to a level higher than the height of the cab of the truck. Proper securing and protection of such property will be the responsibility of the Shipper and subject to Carrier inspection and approval. The height limit will not apply in the case of camper tops or other, similar devices that allow for a cargo space behind the cab of the truck and permits a positive closure and securement of the space and protection of the contents inside.
- I. No personal property or other type of cargo will be accepted for Flatbed trucks if loaded on an open, exposed flatbed truck deck unless prior arrangements have been made and approved by Carrier.
- J. All personal property loaded in or on vehicles will be accepted at the Shipper's sole risk of loss or damage from any cause and no liability for anything other than the vehicle itself will be accepted by Carrier. Claims will not be accepted for any damages to the vehicle that may be attributed to the loading or securing of such personal property within the vehicle. Carrier reserves the right to reject any property if, in Carrier's sole judgment, the loading or securing of property or the nature of the items represents a potential danger to the vehicle, other cargo or personnel.
